Re: Rendering of Service - LabourNet

Dear Sir,

We want to make use of this opportunity to express our gratitude towards LabourNet for the impact it had on our business. We need to point out Danaline Janse v Rensburg's excellent service to us. LabourNet brought our company again in line with fair procedures and corrected our equity plans as well as our skills development.

Ever since we appointed LabourNet as our labour specialists, we are experiencing harmony in the workplace.

The appointment of LabourNet allows us at FM Solutions to focus on our core business, and that is to supply an excellent service to our clients, and provide a safe and fair workplace for all our employees.

We can without any doubt, recommend LabourNet to any business that have employees, or intend to have employees on their pay roll.

Yours in health and safety

Lawrence Hamilton
